

VALVE 20-YEAR LIMITED WARRANTY

This warranty is not transferable and is extended only to utilities, municipalities, other commercial users and authorized distributors, hereafter referred to as "Customer" and does NOT apply to consumers or any person or entity who is not an original Customer of the Company or its authorized distributors.

VALVE CONTROL EQUIPMENT. As used herein "Valve Control Equipment" means the remote disconnect valves and components thereof as delivered to Customer by SET herewith, the components of each remote disconnect valve being the valve body, motor, enclosure, battery (each a "SET Battery"), printed circuit board, connecting cables and installed software.

WARRANTY. SET warrants, to Customer only, that the Valve Control Equipment which is delivered to Customer herewith will be of the kind described herein and will be free of defects in workmanship or material for a period of twenty (20) years from the date of initial delivery to Customer. Should any failure to conform to this limited warranty occur within twenty (20) years after the date of the initial delivery to Customer, SET will, subject to your compliance with SET's notification and substantiation procedures described below, correct such defect(s) by suitable repair or replacement of the defective Valve Control Equipment or component thereof at the applicable SET Expense Commitment as set forth in the table below. This limited warranty is exclusive and is in lieu of any implied warranty of merchant ability, fitness for a particular purpose or other warranty of quality, whether expressed or implied. Correction of nonconformity, in the manner and for the period of time provided herein, shall constitute fulfillment of all liabilities of SET to Customer, with respect to the Valve Control Equipment, whether based on contract, negligence, strict tort or otherwise.

SET shall be responsible for the following percentages of the aggregate cost of the repair or replacement of any Valve Control Equipment to which this limited warranty applies (the "SET Expense Commitment"):

WARRANTY PERIOD (YEARS)	SET EXPENSE COMMITMENT
YEARS 0 - 10	100% REPLACEMENT
YEARS 11	70% REPLACEMENT
YEARS 12	50% REPLACEMENT
YEARS 13	30% REPLACEMENT
YEARS 14 - 20	10% REPLACEMENT

Extended Warranty coverage is available for purchase.

WARRANTY EXCLUSIONS. This limited warranty does not cover any Valve Control Equipment that has not been stored, installed, maintained and operated in accordance with both SET's maintenance requirements and standard industry practice, including, without limitation, the requirement that the remote disconnect valve must be rotated at least once every one hundred twenty (120) days in accordance with the Sediment Turn default as programmed in the Valve Control software. Furthermore, this limited warranty shall not apply to any Valve Control Equipment that is damaged due to abuse, neglect, misuse, fire, accident, collision, explosion, theft, overcharging, alteration, improper installation, use of special additives, or any unauthorized attempt to repair. When operated outside of all recommended settings, warranty is subject to being null and void.

NOTIFICATION AND SUBSTANTIATION OF WARRANTY CLAIM. If Customer believes that any defect in workmanship and/or materials appears within the twenty (20) year limited warranty period to any Valve Control Equipment to which this warranty applies, Customer shall notify SET of such claim by contacting SET Customer Service and going through the Return Merchandise Authorization (RMA) procedures. Customer shall deliver the subject Valve Control Equipment to SET, at the address below, for testing and substantiation of such claim to SET's reasonable satisfaction via the RMA process.

LIMITATION OF LIABILITY. SET shall not under any circumstances be liable for special or consequential damages such as, but not limited to, damages or to loss of property or equipment other than Valve Control Equipment, loss of profits or revenue, cost of capital, cost of purchased or replacement goods, or claims of customers of Customer. The remedies of Customer, and any and all others, set forth herein are exclusive, and the liability of SET with respect to same shall not exceed the price of the Valve Control Equipment upon which such liability is based. It is the Customer's responsibility to confirm that the Valve Control Equipment satisfies local codes and standards.
